Attachments: NPL PFAS Sites Caveats 12_13_2019 OSRTI FFRRO.docx; PFAS POI 20191210.xlsx

Mike:

Attached is OSRTI and FFRRO's NPL PFAS data with necessary caveats to accompany the data. The caveats are similar to the ones provided previously.

Please note that for columns E, L and M, refer to the URL for the Superfund site profile page provided in Column D as a default. The Superfund site profile pages include points of contact (the RPM and/or CIC) (columns L and M), and may or may not include information on PFAS activities at the site (column E). OSRTI and FFRRO are closely coordinating with the OLEM IO on developing language/individual PFAS descriptions for Column E.

Please let us know if you have questions. Thank you.
Schatzi
